About US

SIAA is India's 1st Advanced automation research centre which is responsible for driving applied research for multiple industries like agriculture, manufacturing, construction, healthcare and defence. SIAA, being the fastest growing academia brand in Asia, also provides training and certification in advance technologies to academia and corporate that increase professional's skill capabilities.

Course Benefits

- ➡ Prove Your RPA skill & understandings
- ➡ Gain in-depth knowledge of RPA & Its implementation
- ➡ Implement your skills in any RPA application
- ➡ Readiness for advanced RPA Certification

Career Facts

Top Job Functions

Robotic Process Automation is a booming industry. The volume of RPA jobs has already grown over fifteen times. (Technojobs data).. This course is ideal for who has technical background and wants to make a career in this high-demand domain

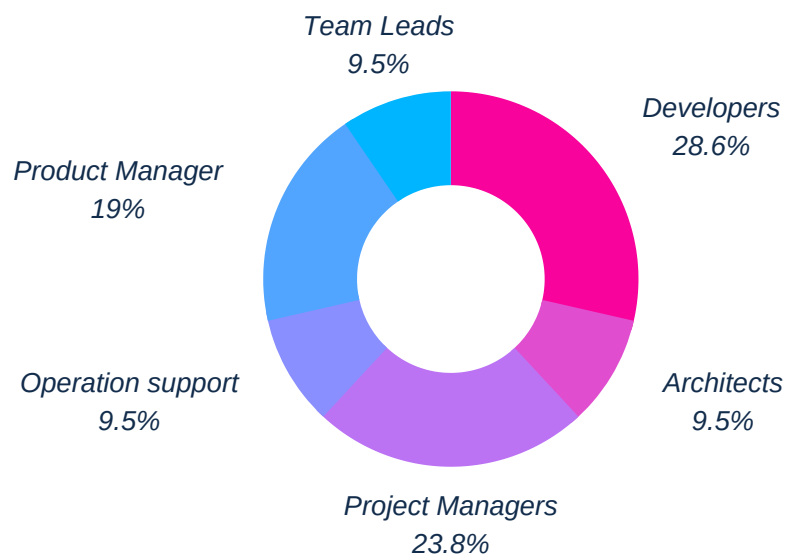

Figure: Pie Chart (Top Job Functions)

Program Features

- ➡ Real-time industry projects
- ➡ 30-days of intense learning
- ➡ Instructor-led training
- ➡ Flexible to choose classes
- ➡ Accredited SIAA Certificate

Who Should Enroll

- ➡ Developers
- ➡ Project Manager
- ➡ Engineering Students
- ➡ Team Leaders
- ➡ Product Managers

Table of Content:

Lesson 1 - Introduction to Robotic Process Automation

- Why RPA?
- Industry Implementation of RPA
- RPA Growth Trends Different RPA Tools
- Types of Bots
- Why UiPath?
- UiPath Installation
- Setting Up the Browser

Lesson 2 - Getting started with UiPath Automation

- Getting Started with UiPath
- Project and Project Types
- UiPath Dashboard
- Files in UiPath
- Sequence and Flowcharts
- State Machine

Lesson 3 - UI Automation and System Activities

- What is UI Automation?
- System Activities
- Demo on System Activities
- Variables and Arguments
- Output Panel
- Custom Packages

Lesson 4 - User Events and Data Scraping

- What Are User Events and Common User Events?
- Excel, CSV and Mail Automation
- What is Data Scraping and Types?
- Selectors

Lesson 5 - Workflow OCR and Citrix Automation Activities

- Introduction to Workflow Activities
- Citrix Automation
- PDF Automation Demo without OCR
- Introduction to PDF Automation
- PDF Automation Demo with OCR
- Introduction to OCR Activities
- PDF Automation Using OCR
- Demo on OCR Activities

Lesson 6 - Programming, Debugging and Exception Handling

- Errorful Demo
- Programming Activities
- Debugging and Exception Handling
